

THE ORIGINAL BUSHMAN

12V/24V:37qt – 55qt

CONQUER THE HARSHTEST AUSTRALIAN CONDITIONS

Strap it down anywhere. In the back of your truck, in the trunk or your 4WD.

- Powder coated steel cabinet
- Tough polycarbonate lids
- High density insulation
- Heavy duty anchor points
- Chrome plated steel slip hinges
- Adjustable latches
- ¾" rubber feet

The Powerful and Reliable Secop Danfoss Compressor

Utilising over 50 years of German compressor technology, Secop Danfoss compressors set the bar globally in power and reliability. Internally sprung and rubber mounted to a dedicated base plate, you can rest assured the engine room of your fridge is first class.

SUPER EFFICIENT

ACHIEVE OUTSTANDING EFFICIENCY IN HIGH TEMPERATURES

The Bushman is right at home in 100°F plus.

- Super ventilation and air flow
- Full size refrigerator condenser
- 4 ¾" fan
- 360° surround internal roll bond evaporator

Digital Thermostat Range 50°F to -8°F

Reduce cycle-on times and use less Ah per day. Simply set the fridge at your desired temperature and the Bushman digital thermostat does the rest.

EXPANDABLE

4 SIZES IN ONE

37qt

44qt

48qt

55qt

Keep things cool and frozen at the same time.

Adjust the fridge to meet your needs with the 10.5qt extension collar and 7.4qt high lid.

The Bushman can be used as a dedicated fridge, dedicated freezer or as a fridge, keep-freeze and crisper at the same time. Simply set the thermostat to 25°F, use your top basket as a crisper, your middle basket as a fridge and the lower basket to keep things frozen. You'll also get easy access to your food using the handy lift-out baskets, so no more rummaging required.
